

INCREASE PATIENT ACCESS. ACCELERATE YOUR RESEARCH.

Precision Recruitment and Impactful Patient Engagement

- Access to 1M+ patients for streamlined recruitment and engagement
- Comprehensive EHR, claims data, longitudinal health histories, and real-time patient data to drive informed decision-making
- Advanced technology and AI tools to enhance participation, communication, and retention
- Strategically located sites to ensure representation, diversity, and provide alternative care options to underserved populations

Diverse Experience and Expertise

- Together we've conducted 500+ clinical trials, involving 9,500+ patients across diverse multi-therapeutic fields
- Our team of board-certified investigators bring specific deep and specialized expertise in CardioMetabolic, CNS, GI, and MASH/Liver clinical research

Centralized, Quality-Driven Delivery

- Streamlined patient recruitment, commercial operations, finance, HR, and IT to enhance efficiency and alignment across all research locations
- Uniform patient and Sponsor experience across all site locations driven by operational excellence with a focus on the highest standards of compliance and quality

Prolerity is the central organization that brings together the expertise of Tandem Clinical Research, ClinCloud, and Allied Digestive Health, three site organizations focused on complex diseases.

A multi-therapeutic, clinical research site network focused on advancing medical science while improving patient care in CardioMetabolic, GI and MASH/Liver.

Clinical research sites focused on connecting patients with innovative clinical trials, specializing in Alzheimer's, Dementias and other NeuroPsych disorders.

The largest gastroenterology and hepatology practice in the Northeast of US (third largest in the country) with 80+ locations and 350+ providers in NJ and NY, specializing in IBD, GERD, Celiac Disease, and colorectal cancer screening.
